## Zdrava hrana / Healthy food

Željeli bi proširiti asortiman novim proizvodima, osobito onima koji nisu prisutni na hrvatskom tržištu (zdrava hrana).

The company would like to extend their product range with new products, especially with those that are still not present on the Croatian market. The company is therefore open to a cooperation in form of a franchise partnership with companies that have health food products in their assortment.
